

CANNABIS TRANSPORTATION, LOGISTICS AND SUPPLY CHAIN MANAGEMENT CERTIFICATE

14 Semester Credit Hours; Curriculum: 0411

This program prepares students for employment in the transportation, logistics and supply chain management for the cannabis industry. This program will prepare transporters to apply state laws and regulations to securely transport and track cannabis between business licenses. Students will also be eligible to apply for their security guard permanent employee registration card (PERC). To be employed as a cannabis transporter, employees must be 21 years of age, meet the requirements to obtain a Department of Agriculture identification card, and pass a federal fingerprint test. This certificate can be completed in one semester.
