

CAREER PROGRAMS AND PATHWAYS

Oakton offers Associate of Applied Science (A.A.S.) degrees and certificates in a number of career programs. These programs are designed for students who seek education and the acquisition of skills for immediate entry to the labor force or advancement in their current careers. Some A.A.S. degrees transfer to four-year institutions. However, the selection of institutions and majors that accept A.A.S. credits is limited. For more information about career programs, contact the department chair of the specific program or the Office of Advising, Transitions, and Student Success.
