The goal of the Fire Science Technology program is to prepare students for careers in fire services and related occupations, as well as to improve chances in the selection process of becoming a firefighter. The curriculum also offers courses for fire personnel to obtain Fire Officer I and II certification from the Office of the State Fire Marshal and for the individual already employed who desires further knowledge in specialty areas of fire science. In addition to Associate in Applied Science Degree, four certificate programs are offered: Fire Science Technology Certificate; Emergency Medical Technician – Basic Certificate; Emergency Medical Technician-Paramedic Certificate¹ in preparation for Illinois Department of Public Health Licensure as an Emergency Medical Technician-Basic and Emergency Medical Technician-Paramedic; Basics of Fire Fighting Certificate.

Clinical placements require health assessment and certain immunizations, at an additional cost to students. Contact Health Services, 847-635-1885 for forms and information.

¹ *Limited enrollment program conducted in area hospitals*
