

HSV - HUMAN SERVICES

HSV 110 3 credit hours (lecture: 3 | lab: 0)

Counseling/Interviewing

Course reviews psychological principles and counseling techniques for public and social/human service workers. Content includes interview varieties, types and purposes; various communication techniques to establish rapport, question, reflect and help clients explore feelings and beliefs; and diagnostic and record-keeping systems. Skills developed largely through class exercises, role-plays and skill practice.

Recommended: PSY 101.

Delivery mode: Face-to-Face | Online

HSV 121 3 credit hours (lecture: 3 | lab: 1)

Assessment, Treatment Planning, and Addiction Strategies

Course examines standardized screening and assessment instruments utilizing electronic health records, including American Society of Addiction Medicine (ASAM) criteria for admission into treatment settings and modalities. Practice integrative and comprehensive approaches that include, but not limited to motivational interviewing, treatment planning, documentation, discharge planning, aftercare, and referral methods.

Theoretical and evidence-based practices to be explored include psychoanalytic, humanistic-existential, behavioral, cognitive behavioral, person-centered, trauma-informed care, Stages of Change and co-occurring related approaches.

Recommended: PSY 238

Delivery mode: Face-to-Face | Online

HSV 122 3 credit hours (lecture: 3 | lab: 0)

Cross Cultural Consideration in Counseling

This course provides an overview of theories and models in multicultural counseling for treatment of mental health and substance use disorders. Identify issues relating to, but not limited to, aging, culture, disability, ethnicity, race, religion/spirituality, gender, gender identify, sexual orientation, marital status/partnerships, language, socioeconomic status, and social justice. Students will engage in activities to analyze their own cultural awareness, influences, implicit biases, and limitations. The course will review culturally-centered, evidence-based assessments, referrals, and case management services. Culturally appropriate interventions will be analyzed for women, LGBTQ+, justice involved, adolescents, gerontology population, and veterans.

Recommended: PSY 238

Delivery mode: Face-to-Face | Online

HSV 210 3 credit hours (lecture: 3 | lab: 0)

Counseling/Interviewing II

Course continues HSV 110. Content includes review of psychological principles and counseling techniques used by public and social/human service workers. Skills learned previously refined to focus on more in-depth probing of issues blocking effective responding of clients to life's challenges. Further methods of analyzing and interpreting data uncovered in therapeutic counseling sessions and interviews. Practice given in conducting sessions, analyzing information uncovered in counseling, and proper documentation.

Prerequisite: HSV 110.

Recommended: PSY 101 and PSY 130.

Delivery mode: Face-to-Face | Online
