

# PCT - PATIENT CARE TECHNICIAN

---

**PCT 101**

**2 credit hours (lecture: 1 | lab: 4)**

## **Patient Care Technician**

Course covers skills and responsibilities of a patient care technician.

Focuses on professionalism, communication, electrocardiography (ECG) procedures, phlebotomy procedures, safety standards and care. Integration of skills and concepts are acquired through hands-on clinical experience at local health care facilities/hospitals.

**Prerequisite:** Admission to the Patient Care Technician Program and successful completion or concurrent enrollment in MLT 107, or consent of department chair.
