

PHT - PHARMACY TECHNICIAN

PHT 125 **8 credit hours (lecture: 7.5 | lab: 1.5)**

Pharmacy Technician

Course provides knowledge and skills needed to become a pharmacy technician. Content includes introduction to pharmacy practice settings; focus is on drug classes, basic physiology, drug interactions, pharmacy calculations, and daily pharmacy operation. Course is geared towards a range of students, from having no prior pharmacy experience to healthcare professionals interested in strengthening current skills.

Prerequisite: Placement testing into EGL 090 and MAT 095.

Delivery mode: Face-to-Face Fee: \$75

PHT 251 **2 credit hours (lecture: 0 | lab: 15)**

Clinical Practicum

Course consists of 250 contact hours at an assigned practicum site.

Course provides an opportunity to observe and gain proficiency in pharmacy technician duties at a pharmacy setting.

Prerequisite: PHT 125 with a minimum grade of C.

Delivery mode: Face-to-Face | Online Fee: \$25
